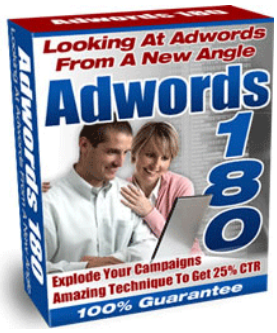
Adwords 180



Discover, Why For Most People, AdWords is a Losing Battle.

Remember back in 2003 when margins were ridiculous and there was very little serious competition? Do you long for those days of cheap clicks that converted like crazy? When I tell people that they are still there, they look at me as though I should be locked up.

How Lazy Affiliate Marketers Can Still Load Up in 2007.

It's true. If you're using the Adwords180 techniques you will be still able to get by without your own web-site. Even after the Google slap of July 2006, this technique still pulls in masses of cheap targeted traffic to do with as you wish.

Look, I'm not going to preach to you about how to use this traffic. Use it for traditional 'no brainer' affiliate marketing campaigns or list building if you like. I prefer to use this technique to research new niches before going to the trouble of building a landing page. Sometimes though even I can't be bothered to do that.

Pay LESS than 1¢ or $0.01 per click.

Most AdWords users out there don't believe this is possible. The reaction of most people ranges from stubborn disbelief to outright anger. The price of this guide pays for itself time and time again often within a few days, once you know how to do this.

Crush Your Competition.

Using the Adwords180 techniques you can put your competitors at such a disadvantage that they have to pack up and leave the niche. They would be humiliated but, ironically, they don't even realize what happened.

Don't Be Content Again With a CTR of 10%.

You'll find out in this guide why I only grudgingly accept 10% CTR. What I really expect are adverts with 25%+ CTR. In this guide you will finally have your hands on the secret which creates those mythical adverts which pull CTRs of 15%, 20% even 40%, day after day after day.

by Rosalind Gardner

Have you seen all the **hucksters' hype** about 'How to earn **HUGE money** on the 'Net?'

It's sickening! Most of them have **never earned a dime** online! They're trying to sell you some gimmick, or 'Internet Mall' that **won't bring you 2 red cents.**

If you're tired of the B.S. and are ready to learn **the truth** about Internet and Affiliate marketing - stick around.

This book could change your life!

Honestly! I get angry every time I hear someone say that there's no money to be made by promoting affiliate programs.

What a pile of unadulterated cow dung! Anyone telling you that affiliates aren't making money, either hasn't tried it himself, or is so greedy that he doesn't want you to share in the wealth.

The truth is, you can make **INCREDIBLE MONEY** online by promoting *ONLY* affiliate programs.

Traffic Digger

Traffic Digger is a great **Web Traffic Program** we use that can drive a lot of **FREE Web Traffic** to your website and is highly recommended.

The Power of Viral Advertising

Double a penny every day for a month and what do you get? Over 10 million dollars!. That's the power of exponential growth, and internet is the best medium for this system.

Since the Internet era, viral advertising becomes the most reliable means to advertise almost anything. Internet can reach every corner of the world, and so does your website! That's why Traffic Digger exists. Traffic Digger works based on viral advertising concept. With clean design and easily readable ads, you can be sure that we're the best place to advertise your website for FREE!

How Traffic Digger Works?

Traffic Digger works with simple way, but will never failed. We're similar with other multi level marketing system. More downlines you get, more websites will show your ads, and more visitors you get for your website. This is how our system works:

When you signed up, you will get a website like this with your ad at the 1st position, and ad at current 1st position will be moved to 2nd position, current 2nd to 3rd, and so on. Ad at current 7th position won't be shown anymore.

When you advertised your Traffic Digger website and someone signed up from your link, their ad will be at the 1st position, and yours will be moved to 2nd position. Your ad will be listed in every Traffic Digger website from your downlines up until 6 levels deep. With 6 levels viral marketing like this, you can imagine how much traffic you will get from Traffic Digger.

FREE Viral Traffic

Q: Can I really Get Over 1,000,000 Visitors Every Month?
A: Yes! Guaranteed Visitors, and it's Absolutely Free!

In Less Than 5 Minutes You Can Have Your Own Free Viral Marketing Mini site.... and Then Watch Your Traffic EXPLODE !!

So How Does This System Work?

Our system is similar to others you may have seen on the Internet with one major difference... our system guarantees traffic to your website! The concept is simple; at the bottom of this page you will notice 6 classified ads.

When you sign up, you will receive a website just like this one with your classified ad in the #1 position! The ad that was in the #1 position will move down to the #2 position, the 2nd ad to the #3 position, and so on with the last classified ad being taken off of the page.

When someone signs up from your website, their classified ad will be placed in the #1 spot with your ad moving to the #2 spot, the 2nd ad moving down to the #3 spot and so on. By the time your classified ad reaches the #6 spot, you will have noticed an amazing amount of FREE traffic!

How Do I Get Guaranteed Traffic?

When someone signs up from your site, they must first click on your classified ad which will open a new window leading to your main website. They will have to wait a few seconds for the code to appear on a separate frame at the top of the screen.

While they wait, they will have time to read what you have to offer! This can equate to more sales, downline members, affiliate sign-ups, ezine subscribers, etc.! Each classified ad will have to be clicked on to retrieve a unique code meaning that you will receive FREE Traffic throughout all 6 levels!!!

This system works amazingly well on the Internet. There is nothing to slow it down. You can setup your viral webpage today and have 5 or 10 sign-ups within a few days! With it being so easy to join you could literally have over 50,000 sites displaying your ad within a short time!

The system works extremely well so be prepared for some massive visitor traffic to your site! Remember, this system doesn't just give you ad exposures, it generates **GUARANTEED VISITS** to your site, because participants are required to visit your website. And that translates to **GUARANTEED MASSIVE VISITOR TRAFFIC TO YOUR SITE**

Perhaps you can relate to the list below because many of those things have happened to me. Has any of the following happened to you?

Joined biz ops that told you, you would make a fortune and you never made a dime.

Joined under deadbeat sponsors that would not help you.

Joined MLM opportunities in which you had to have hundreds to thousands of members in your downline before you made any significant money.

Advertised until your fingers felt like they were going to fall off, maybe signed up one member just to watch that one member drop out a month later.

Involved in a great business opportunity but you have little to no idea where or how to advertise it.

These 5 New Business Ventures Will Make You £15,000 or More Every 5 Days, Guaranteed!

Venture 1: A Clever System Which Will Earn You Up to £9,000 EVERY WEEK.

This venture is also my personal favourite (out of the five explained in the guide) as it earns me the most money with the least amount of effort. It only takes a few hours to set up and is extremely easy to run (takes less than 10mins each day!)

Venture 2: Start an Online Business Which Earns You Up to £12,000 EACH WEEK!

This has to be my 2nd favourite venture I ever started. All I do is I place about 20-35 words in a newspaper and underneath those words I simply insert a website address. No fax number... no phone number... no address... just one line of text and a web address.

Venture 3: How I Turned £5 Into £500,000 Last Year!

You will find out that what I do is quite SIMPLE. If you have the desire to succeed/earn then I will show you everything else in order for you to be earning up to £10,000 a week from the use of a 5 pound note.

Venture 4: How You Will Rake in Over £2,000 Online EACH WEEK!

Once you are all set-up, you will need to have approximately 1 hour available each WEEK to sit in front of your computer, tap a few buttons, have a local newspaper by your side and follow my STEP-BY-STEP methods. That's right, just 1 hour per week needed!

Venture 5: How You Will EASILY Earn Over £1,000 EVERY WEEKEND!

To answer your question. It's not too good to be true. I do it every week and if I can do it, so can you. To answer the other question, no you don't have to be a genius to do it! what I am going to share with you is a proven, consistent, secure system that produces income every weekend.

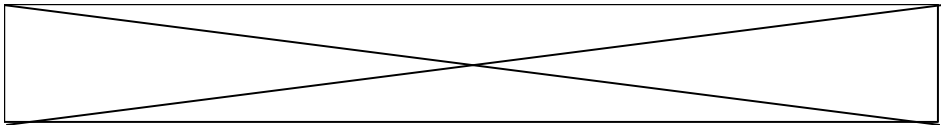
Money Making Systems

e-Lottery Syndicate

Play The e-Lottery through the **e-Lottery Syndicate** and give yourself a much greater chance of **Winning Every Week**. There are 2 Lottery's you can play, either the **UK Lotto** or the **Euro Millions**.

UK Lotto



Discover How The Syndicate System Gives You The e-Lottery Advantage

With a record jackpot of **£42 million GBP**, the **UK National Lotto** is one of the richest, lump-sum, tax-free lotteries in the world. It's played twice a week, on Wednesday and Saturday evenings, with both draws televised on the BBC.

Of course watching a lottery being won by other people is so, so much easier than winning a lottery yourself.

But Now The e-Lottery Syndicate System is Here, Guaranteeing To Move You Several Steps Closer To That Exclusive Jackpot Winners Club in Every Single UK Lotto draw!

Join online as a Player Member and we instantly allocate you a place in a **49-Player UK SYNDICATE**, emailing you confirmation with a virtual **E-Lottery Membership Card**. The card bears your 5 lottery numbers, picked from 1 to 49, which we enter automatically in every **Wednesday and Saturday UK Lotto Draw**.

After each draw we check your numbers and send your winnings directly to you by your **Chosen Method**.

Now, if you've played the UK Lotto game normally on your own or in a conventional syndicate before, you're probably thinking: "Hold on a minute! You play Lotto with six numbers from forty-nine, not five numbers from forty-nine,"...And you'd be right.

But that's the really great thing about the e-Lottery... effectively, you only need to play with 5 numbers. All because your 5 numbers your 'Main numbers as we call them are combined with a variable 6th number in a strict mathematical pattern so that you know before every draw that you're going to match at least 1 number.

© 2007 Information 4 Profit – All Rights Reserved

Scoop As Many As 88 Multi Win Prices Every Week

What's more, for the System to work for it to secure that vital 'guaranteed' number it needs precisely 44 single line entries in each UK Lotto game...Which means you get **44 chances of winning in every draw**!

With 2 weekly draws, that's a remarkable **88 chances of a prize every single week**!

But that's only part of the prize-winning power in the System. Forty-four entries means you also harness the capability of what we call the systems **MULT-WIN METHOD**.

Incredibly, when you win, you never win just one prize...**You win up to 44 prizes!**

Multi-Win UK Syndicate Winnings Table

Main Numbers Matched	Number of Wins	Category of UK Lotto Win
5 matched	44	1 x 6-ball JACKPOT win 1 x 5 + Bonus ball win 42 x 5-ball wins
4 + Bonus ball matched	44	2 x 5 + Bonus ball wins 42 x 4-ball wins
4 matched	44	2 x 5-ball wins 42 x 4-ball wins
3 matched	44	3 x 4-ball wins 41 x 3-ball wins
2 matched	4	4 x 3-ball wins

So What Does It Cost To Have The e-Lottery Advantage Over Your Lotto-Loving Friends Who Play The Normal Way?

Just **£5 a week**. No joining fee. No hidden costs. No deductions from your winnings.

You can pay a week at a time and play for as short or as long a spell as you like. Be it one week, one month, or one year. No commitment. No contract.

What's more, you have the option to become an **Affiliate Member** and work towards playing effectively at no cost at all. And into the bargain earn extra income.

Of course, if you want to, you can play in both Syndicates UK and Euro to maximise your chances of winning. This costs just £10 a week for 3 weekly draws (£3.33 each), giving you in total **124 chances of a win**.

BUT... for as little as £5, you

- **Enter the two weekly UK Lotto draws with a total of 88 lines!**
- **Have one less number to match than independent players for a win**
- **Play with 702% UK/ 3600% EURO better chance of scooping the jackpot**
- **Play with a 1 in 13 chance of winning any prize**
- **Win more than you would playing normally with the same numbers**
- **Enjoy the simplicity and convenience of the Syndicate System**
- **Control everything from your computer from anywhere in the world**

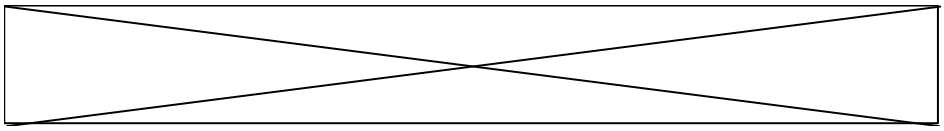
Euro Millions Lottery



Jackpots Estimates To Hit £100 Million

With this vast European lottery-playing population it the biggest lump-sum, tax-free lottery the world has ever seen. Indeed, the game's highest payout so far came on the 03rd February 2006, with an impressive 10 Rollover's to produce a jackpot of **£126 million!**

Become a Player Member and we instantly allocate you one of **39-places in a EURO SYNDICATE**, emailing you confirmation with a **E-Lottery Membership Card**. The card bears your 5 lottery numbers, picked from 1 to 50, which we enter automatically in every Friday draw.

Scoop As Many As 36 Multi Win Prices Every Week

What's more, for the System to work to 'guarantee' the vital Lucky Star numbers it needs precisely 36 single line entries in every Euro Millions draw...

Which Means You Get 36 Chances of Winning in Every Draw!

But that's only part of the prize-winning power in the System. Thirty-six entries means you also harness the capability of the systems **MULT-WIN METHOD**.

Incredibly, when you win, you never win just one prize...**You win up to 36 prizes!**

This Winnings Table shows you how many prizes you get for how many correctly matched numbers, thanks to this Multi-Win Method:

3,600% Better Chance of Scooping A Jackpot...

If you've played the Euro Millions game normally on your own or in a conventional syndicate before, you're probably thinking: "Hold on a minute! You don't play Euro Millions with just the five numbers from 1 to 50, you play with the five numbers plus two Lucky Star numbers picked from a separate set of 1 to 9, as well"...

And you'd be right.

But that's the really great thing about the e-Lottery... effectively, you only need to play with just the 5 numbers. All because those numbers 'Main numbers as we call them are combined with all permutations of the 9 Lucky Star numbers in a strict mathematical pattern so you know before every draw that you're going to match both Lucky Star numbers in every draw.

And with two less numbers than normal to have to match, not only will you have a **3,600 per cent greater chance of scooping the jackpot**, your chances of winning any prize jump to only 1 in 4...

In fact, you qualify for a prize even when you match just 1 Main number!

Agloco – Own The Internet

AGLOCO: The Internet's First Economic Network

Today's hottest Internet businesses are all about the power of social networks. Companies like MySpace, Facebook, and YouTube have become worth billions because businesses have realized that these social networks are generating huge advertising and marketing opportunities. As these social networks grow, the economic potential for its owners – and the advertisers who target the site's users – is remarkable.

At AGLOCO, we asked a simple question: The users created the community, where's their share of the profit?

It was from this question that AGLOCO set out to create the Internet's first Economic Network, harnessing the power of Internet-based social networks to directly benefit the Members who help to create the community.

Becoming a member of AGLOCO is as simple as completing a brief sign-up page (name, age, location and email address.). Once you're a Member, you will be asked to then download the Viewbar™ software. (Note: the Viewbar™ software is currently unavailable, as it is in closed testing. It will be ready for public download in a few weeks, and members will be notified when it is available.)

© 2007 Information 4 Profit – All Rights Reserved

AGLOCO Makes Money For Its Members in Many Ways:

Search: Every time you use the Viewbar™ to do an Internet search, AGLOCO earns money from the search engine providers. (For example, Google pays as much as $0.10 on average for each search that is directed to its search engine.)

Advertising: The Viewbar™ itself displays ads that are targeted based upon the websites you're visiting. When you click on an ad and make a purchase, AGLOCO receives a referral fee, which we pass on to our Members. (Please note: Individual members do not receive any compensation for clicking on ads in the Viewbar™, and the Viewbar™ can detect if someone is clicking ads in a fraudulent manner.)

Transaction Commissions: Many major retailers pay commissions when you refer customers who make a purchase. AGLOCO collects that commission and passes it on to our members. (For example, Amazon pays an 8.5% commission to most websites who refer customers, and has cut deals for even larger percentages. The bigger the AGLOCO community, the better commission we can negotiate for our Members.)

Software Distribution: Numerous software companies pay websites to encourage the download of new software releases (for example, Adobe's Flash and Acrobat Reader software), and trial versions of new programs. AGLOCO members not only get access to the latest and coolest software, they get paid for it.

Service Distribution: Many online service providers will look to the AGLOCO community as a source of new and active users for their services. (For example, eBay, Skype, and PayPal, among others, all pay fees to people who help them recruit new active users to their services)

Product Distribution: When Members agree to use a product, such as cell phones, high-tech gadgets, office supplies, new credit cards or financial services, AGLOCO can collect referral fees. Some companies even offer special rebate and cash-back programs.

Why Should I Join Now?

First, it costs nothing to **Join** and takes less than one minute.

Second, you can **help build** the AGLOCO community by recruiting new Members **TODAY.**

Right now, inviting your friends to join AGLOCO is as easy and productive as it will ever be – but you need to invite your friends before someone else beats you to them.

Remember, the bigger the AGLOCO community, the more attractive AGLOCO is to potential business partners and advertisers.

- Recruit your friends and family by contacting them through email.
- Use your blog and your existing social networks, such as MySpace and Facebook, to contact your friends and encourage them to join a new community that will let them earn money.
